

Film Lab

Prasad Group is India's largest provider of integrated post production services catering to every area involved in the Film, Video and Digital post production process. Prasad Group's Motion Picture Studios, Film Laboratories, Audio Studios and Digital Post facilities across all the film making centers of India are well known for their uncompromising quality and excellent customer service.

Prasad's Film Lab services are one of the most reputed and renowned in this part of the World. With a history spanning more than three decades Prasad Film Laboratories is a Kodak Imagecare Certified facility. We were the first to introduce the Digital Film Lab concept in India providing high end scanning, Digital Intermediate and Digital Mastering facilities capable of output to any format and media including Digital Cinema, Celluloid Film, DVD, Blu-Ray, Web based, Mobile and other media deliverables. We offer clean, fast color negative processing for 16mm, Super 16mm, 35mm and Super 35. Our printing machines are fitted with digital sound head capable of handling Dolby SR, SRD, DTS, SDDS and other optical stereo formats release prints. We have high speed processing machines from globally reputed manufacturers. We are equipped with Ultrasonic cleaner, a full fledged chemical analytical lab and quality control department, Optical department and Optical Sound Transfer department equipped for transferring all sound formats to 35MM & 16mm film formats.

Our highly professional creative, technical and quality control teams have been providing wonderful customer experiences to a wide section of clients from around the world including several critically acclaimed film makers and motion picture studios. Our highly motivated staff is encouraged to explore, learn and voice new ideas amidst an atmosphere of comradeship and healthy competition. Set in a sprawling vintage film studio our post facilities are equipped with the latest technologies and the constantly evolving best practices drive our operations successfully year after year. Our Technology Engineering Division is tuned to the most recent developments and evolving future trends in the digital imaging world, ensuring that our customers get the best products and services.

Our complete range of post production Solutions include Digital Cinema Services, Film Lab Services, Digital Intermediate, VFX, Telecine, Editing, Tape to Film Conversion, Audio, Digital Film Restoration, DVD Authoring, Blu-Ray Compression & Mastering, Cameras and Shooting Equipment Rentals.
